

SANTIAGO GALLARDO

SOFTWARE DEVELOPMENT STUDENT

I am an aspiring software and machine learning engineer with experience in Python, C#, web development, and database management. I enjoy building real-world applications, learning new technologies, and solving complex problems. I am eager to contribute to impactful projects and grow as a developer while exploring AI and software engineering.

EDUCATION

Colegio Mexico Nuevo

- Completed Secondary Education
- English - B2 (Upper-Intermediate)

Centro de Enseñanza Técnica Industrial

- Programming and software development skills
- Fundamentals of systems engineering

EXPERIENCE

El Último Miembro - RPG Game (C# + MySQL)

- Developed a role-playing game with character creation, combat system, map exploration, inventory management, and NPC interactions.
- Implemented persistent storage using MySQL, including scripts for database setup.
- Applied object-oriented programming, pathfinding algorithms, and UI design with Windows Forms.
- Technologies: C#, .NET 8, MySQL, Windows Forms, Visual Studio

Gestor de Notas (C# + Windows Forms + MongoDB)

- Developed a desktop application for creating, reading, updating, and deleting notes (CRUD).
- Implemented real-time search functionality for fast note retrieval.
- Designed a clean, user-friendly interface using Windows Forms.
- Integrated MongoDB for efficient data storage and retrieval.
- Technologies: C#, .NET 8, Windows Forms, MongoDB, Visual Studio

Corporate Website Project (HTML5, CSS3, JavaScript)

- Developed a responsive website for an industrial services company to showcase services, equipment, and contact options.
- Implemented responsive design for mobile and desktop devices.
- Optimized pages for SEO and social media sharing (Open Graph).
- Technologies: HTML5, CSS3, JavaScript, Responsive Design
